Introducing Galaxy VM

From 160 kVA & 200 kVA
Three-phase power protection

Highly efficient, easy-to-deploy, three-phase power protection that seamlessly integrates into electrical, physical, and monitoring environments of customers' medium data centres, industrial, or facilities applications

The GalaxyTM VM is a key component of the fully integrated and comprehensive Schneider Electric energy management solution for data centres and industrial applications. Deploying the latest in technology, it lowers energy costs through high efficiency and an ECOnversion mode. State-of-the-art electrical performance options, such as wide input voltage range, high overload and short-circuit capacities, and integrated back-feed protection, allow the Galaxy VM to seamlessly integrate into your electrical network to provide excellent power quality.
Highly compact, the Galaxy VM also integrates well with facility monitoring systems requirements, offering energy storage flexibility that tailors the solution to your specific needs.
It features top and bottom cable entry, full front service access, back-to-the-wall installation, and includes start-up services, making the Galaxy VM one of the easiest UPS units in its class to deploy, install, and maintain.

Galaxy VM

Integration

- Schneider Electric StruxureWare™ software applications and suites
- Electrical network earthing systems
- Facilities infrastructure
- Seismic certified
- Monitoring systems — BMS, modbus, etc.

Energy and cost savings

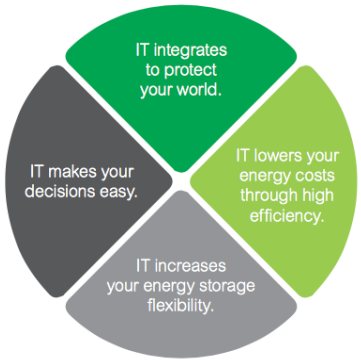

- ECOnversion mode
- High-efficiency double conversion mode
- ECO mode

Energy storage flexibility

- Traditional (VRLA) and modular battery offer
- Common battery available in standard
- Short and long backup times
- Selectable charging modes

Ease of installation

- System designed for ease of cabling in confined installation spaces
- Single cabinet top and bottom cable entry
- Integrated casters for ease of mobility on UPS and modular battery cabinets

Contact us at Total Power Solutions and we can guide you through the design, configuration and implementation of your Galaxy VM UPS solution.

With start-up service included and a full suite of services available form Total Power Solutions in partnership with Schneider Electric, we can offer the best service team in the business now with the most efficient high power 3Phase UPS in the marketplace today.
